Angus VFD Report

Kim Newsom reported that the Angus VFD received an update on the grant truck that will go into production at the end of January 2025 to the beginning of February 2025, and we should receive the new truck sometime in August 2025.

Angus VFD has been dispatched to 272 calls through the end of December 2024, and they answered 216 of those calls for the year with 80 of those calls being for medical help. The white firetruck has now been repaired and returned to the fire station.

Sewer Report

Kacy Perry was present and said it's been a quiet month and plant is running smoothly. The owner of the hotel/store called him for a sewer leak at the store, so he had a plumber come out and run a camera through the line to see where the sewer line was collapsed at so that it can be repaired. The repair is the store owner's responsibility since the City of Angus sewer line ends at the man hole at the store. Kacy stopped by the store to talk with the owner, but he wasn't available at the time so he left a message for him. Still waiting to hear back from the owner.

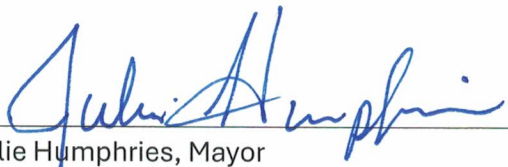

Police Report

Council reviewed the report.
