## **Angus VFD Report**

Kim Newsom stated the FAST grant is finished and finalized. We are waiting on the final 10% to be deposited into our account to get our tender truck.

We received an email from the Texas Forestry Service that we are eligible for 2 more grants through them. One of the grants is for a service tender for \$300,000, with our 5% local match of \$15,000. The other grant being offered is for a slip-on tank for \$45,000, with our 5% local match of \$2,250. For this grant we would need our own truck, so we will most likely decline this one.

We will have two slip-ons coming off of our current trucks, so no need for a 3<sup>rd</sup> one. We have 2 weeks to accept these grants, and we emailed asking if we could sub the slip-on for a chassis, but that is not allowed with this grant.

The VFD has been blessed with grants totaling over 1 million over the last few years. Which is great for us since we are working to improve the age of our fleet. Our newest truck is a 2004, with our oldest being 1967.

We are also grateful to the City Council for agreeing to help us build a new fire station to house our newest trucks to our fleet. We are on the wait list to get the station built, and construction is set to begin in December 2025.

We have answered 180 calls through September 2025, and 15 calls so far for October 2025. 35% of those calls are for highway incidents, and 50% brush fire calls, and 50% medical/wrecks. We are currently under a burn ban in Navarro County.

#### **Sewer Report**

Kacy Perry reported that all is good, and that we are on the wait list to get the lift station light fixed.

Council reviewed the report.
