Angus VFD Report

Kim Newsom reported that they received 42 calls for the month of August. Mostly fire calls and some medical.

New station update, the gravel is now complete, and the electrical work will be completed this week. Next week we will have the insulation done, and the bathroom walls after that. The plumbing is done, except for the water heater. We have ordered a sink and the vanity sinks for the bathrooms to be installed.

We carried the UTV to Haltom City last week to have the skid unit put on and should be ready for pick up this week to close out that grant.

Our new grant we ordered last October we have been informed that the L9 motor that was to be installed in the new truck doesn't meet the emissions guidelines and with the motor changes it would cost \$15K more to get the truck we ordered. We have found a 4 door 1500gal water tender for \$2K more that will go into production by the end of this year and we should have it by the end of Spring/Summer 2027. This truck will be our initial highway truck.

Sewer Report

Kacy Perry reported all is good. We have signed our TCEQ SEP to have a smoke test done on the entire sewer system.

Police Report

Council reviewed the report.
